NEW APC CONSULTANT

In order to meet the ever increasing demands for our expertise, APC is pleased to announce the addition of the following new APC colleagues:

- **Eric** started to work with APC in 2010, offering various services in the scope of Regulatory. He has an MSc in Chemistry and has strong experience in the Regulation of Phyto Pharmaceutical Products, which he gained working for 8 years for Multinationals Agchem Companies operating in EU-27, Middle-East and Africa. Whilst Eric specializes in the chemistry aspects of the Regulation, he coordinates and prepares dossiers for registration of active substances at EU level (so called Annex II dossier) and dossiers for registration of PPP at national level (so called Annex III dossiers).
- **John Weetman** holds a degree and PhD in chemistry from the University of Leicester. He previously worked for 19 years for a multinational specialty chemicals company, initially as a research chemist but then for 10 years in a variety of regulatory positions. In such roles he was responsible for the classification of products for supply and transport, the notification of new substances / risk assessment, dangerous goods management and training and in his latter roles in assisting 3rd party clients in their preparations for REACH and delivering training in the requirements of GHS. John has also worked for a leading environmental consultancy delivering REACH services to clients and more recently for a leading manufacturer of additives for lubricants and fuels where he was engaged in SIEF and Consortia activities in support of the pertinent REACH registration obligations. Throughout these varied roles John has developed expertise in a number of different industry sectors, represented the chemical industry on a number of trade association working groups, made presentations at a number of international forums and has forged positive relationships with the regulatory authorities.
